WORK EXPERIENCE

Infinite Campus

Blaine, MN

Software Engineer I

May 2025 - Present

- Engineered scalable backend microservices and RESTful APIs for high-volume modules (10M+ users) utilizing Java, Spring Framework, Angular, and SQL Server.
- Spearheaded development of the Dependent Care system, automating administrative workflows to reduce overhead across 100+ school districts.
- Led backend integration of the Stripe API for payment processing, designing asynchronous webhook listeners, secure transaction pipelines, and ensuring data consistency across relational database tables.
- Enforced code quality and system reliability by writing comprehensive unit and integration test suites (JUnit, Mockito, Cypress, Jest) integrated into Jenkins CI/CD pipelines.
- Demonstrated technical leadership by mentoring a software engineering intern and facilitating daily Agile ceremonies, backlog refinements, and sprint retrospectives.

Software Engineer Intern

Jan. 2024 - April 2025

- Developed and maintained enterprise features for an activity registration platform serving school districts across 47 states using Java, Spring Framework, and Angular.
- Built documented RESTful APIs, maintained relational SQL database integrity, and authored backend unit tests using JUnit.
- Collaborated in Agile sprints, translating business specifications into maintainable backend logic and accessible UI components.

University of Minnesota, Department of Computer Science

Minneapolis, MN

Undergraduate Teaching Assistant

Sep. 2023 - Dec. 2024

- Mentored 430+ students in Object-Oriented Programming and Java data structures, debugging complex logic issues during labs.
- Provided code reviews focusing on algorithmic efficiency, clean coding standards, and memory management.

EDUCATION

University of Minnesota Twin Cities, College of Science and Engineering

Minneapolis, MN

Bachelor of Science, Computer Science (GPA: 3.88/4.0) with Distinction

May 2025

- Organizations/Awards: Dean's List (x6), Society of Professional Hispanic Engineers, Mi Gente LSCC, Radio K

PROJECTS

Personal Portfolio (Azure & CI/CD) | NextJS, Tailwind, Framer Motion, Azure

- Architected a CI/CD workflow using GitHub Actions to automatically build and deploy the application to Microsoft Azure Static Web Apps.
- Built a responsive, performance-optimized UI with dark/light mode toggles and framer-motion animations.

Music Theory Assistant | NextJS, PostgreSQL, Node.js, Supabase, TypeScript

- Developed a full-stack web application with a Node.js backend and a persistent PostgreSQL database (via Supabase).
- Implemented RESTful API endpoints for user data management and wrote comprehensive unit tests to ensure backend reliability.

SKILLS

Backend & Architecture: Java, Spring Framework, RESTful APIs, Event-Driven Architecture, Microservices, Hibernate

Data & Messaging: SQL (SQL Server, PostgreSQL), Data Modeling (Relational & NoSQL), Stripe API (webhooks)

Testing & Quality: JUnit, Test-Driven Development (TDD), Cypress, Jest, Postman

Cloud & DevOps: Docker, Kubernetes, Jenkins, GitHub Actions, Azure, AWS, Linux, Git, Jira

Frontend & Languages: TypeScript/JavaScript, Python, C++, Angular, React, Next.js
